A. GENERAL

1. Formation. The Fair Oaks Public Cemetery District is a public cemetery district formed on August, 26, 1926 by resolution of the Sacramento County Board of Supervisors and existing under the provisions of the laws of the State of California.

2. Purpose. The provisions of these Bylaws ("Bylaws") and Policies and Procedures ("Policies") and Rules and Regulations ("Rules") enacted by the Board of Trustees of the Fair Oaks Public Cemetery District ("District") are to assist the Board of Trustees of the District as it sets policy and conducts the business and affairs of the District. It is the intent and purpose of these Policies to help clarify and define the responsibilities of the officials of the District. The purpose of these Bylaws is to supplement state law and to provide more specific guidelines for the actions of the Board of Trustees of the District by means which are fair, fiscally responsible, and protective of the interests of the people of the District. These Bylaws express the consensus of the Board as to policy matters covered but are not intended to be exhaustive nor are they intended to restrict the otherwise lawful authority of the Board. Notwithstanding any other term, provision or condition of these Bylaws, no otherwise lawful act of the Board or the officers of the District shall be invalidated by reason of any term, provision or condition of these Bylaws.

3. Roster of Public Agencies. Pursuant to Government Code § 53051, each time a change is made in the name of the District, the address of the District, or a change in the members of the governing board, a statement of facts will be filed with the Secretary of State and the Sacramento County Clerk within ten (10) days of the change.

4. Applicable Law. That which is contained in the applicable provisions of the California Health and Safety Code and applicable provisions of the California Government Code govern the actions of the District and its Board of Trustees.

B. ORGANIZATION

1. Board of Trustees. The District is governed by a Board of Trustees consisting of five (5) members appointed by the Sacramento County Board of Supervisors. The Trustees shall hold office for four (4) years and until their reappointment or appointment of their successors. All Trustees' terms shall commence at noon on the first Monday in January following appointment and end on the first Monday

in January four years later. To the extent possible, Trustees' terms shall be staggered so that no more than two (2) Trustees' terms expire in the same calendar year.

2. Oath. Each Trustee shall accomplish an "Oath or Affirmation of Allegiance and Affidavit of Citizenship." Two copies of the form will be mailed to the Trustees by the Sacramento County Board of Supervisors upon his or her appointment. One copy of the executed Oath will be forwarded to the County Clerk and one copy kept on file in the District Office.

3. Officers. The officers of the Board of Trustees shall be Chairperson and Vice Chairperson. The Board may also appoint a Secretary and, in the event any of the District's funds are withdrawn from the County and managed by the District, the Board shall also appoint a Treasurer, which person shall be bonded.

4. Election of Officers. At the first meeting in January of each year the Board shall elect a Chairperson and a Vice Chairperson to serve terms of one year and may be re-elected to any number of consecutive terms by voting members of the Board. Upon the occurrence of a vacancy in one or more of the officer positions, the Board shall fill such vacancy in accordance with the law. An interim election for Board Officers may be held upon the written request of the majority of the trustees on the Board at the time.

5.03 The Board may establish procedures under which notice is given exclusively to prequalified vendors and identify other forms and procedures for the issuance of notice. Prequalification shall be based on any available information, including but not limited to information provided by the bidder. A bidder's name may be removed from the list of qualified bidders for any of the following reasons:

- a. Failure to respond to questionnaires issued by the District or to provide financial statement or other information as may be requested;
- b. Failure to respond to three (3) consecutive invitations or requests for bids or quotations on services or items offered by the bidder;
- c. Failure to satisfactorily perform under a previous purchase order or contract;
- d. Failure to respond to any inquiry from the District regarding whether the bidder continues to be interested in doing business with the District;
- e. Submittal to the District by the bidder of a written request to be removed from the list of qualified bidders;
- f. Change in qualifications of a bidder to the extent that he no longer meets the minimum requirements applicable to bidders offering the services or item offered by the bidder.

5.04 The notice inviting bids shall set a date for the opening of bids. The first publication or posting of the notice shall be at least ten (10) days before the date of opening the bids. A copy or copies of the notice shall be posted and kept posted for five (5) days at or near the door of the District's office.

5.05 The Board may reject any bids. If the Board rejects all bids, it may either re-advertise or adopt a resolution, by four-fifths (4/5) vote of all of the District's Trustees, declaring that the service can be performed more economically by the District's employees or obtained at a lower price in the open market. Upon adoption of the resolution, the Board may undertake the service contract without further complying with this section.

5.06 If no bids are received, the Board may undertake the service contract or purchase of personal property without further complying with this section.

5.07 Awards shall be determined by and be based upon the best proposal which, in the discretion of the Board or the District Manager, is the proposal which most adequately meets the needs of the District at the lowest price.

a. In determining the best proposal, in addition to price, the Board or the District Manager may consider the quality, availability and functional or other suitability of the personal property or contractual services to the particular use intended. The Board or the District Manager may also consider other factors, including, but not limited to, the following: the ability, capacity and skill of the bidder to perform the contract or provide the service required; whether the bidder can perform the contract or provide the service promptly, or within the time specified, without delay or interference; the character, integrity, reputation, judgment, experience and efficiency of the bidder; the quality of performance of previous contracts or services; the previous and existing compliance of the bidder with laws and ordinances relating to the contract or service; the sufficiency of the financial resources and ability of the bidder to perform the contract or provide the service; the ability of the bidder to provide future maintenance and service for the use of the subject of the contract; the number and scope of conditions attached to the bid.

b. With respect to acquisitions of title to personal property or the use of personal property by rental, lease or otherwise, the best proposal shall be, as to products which equally satisfy intended uses, the one submitted by a responsible bidder at the lowest price.

5.08 Purchases may, but need not, pursuant to competitive proposals under the following circumstances:

a. When the aggregate or cumulative price to be paid under the purchase contract is five thousand dollars (\$5,000) or less, unless otherwise required by state law;

b. When a patent or proprietary item is being purchased;

c. In the event of an emergency; or

d. When the following types of personal property or services are being acquired, obtained, rented or leased: (I) advertising; (II) books, recordings, motion picture films, subscriptions; (III) insurance; (IV) public utility services; (V) travel services; (VI) property or services provided by or through other governmental agencies; or obtainable from suppliers which have in force a current contract with another governmental agency for the same item or service; or (VII) property or services the price of which is fixed by law.

5.09 Patented or Proprietary Items: When the District requires supplies, materials or equipment which are produced by only one manufacturer, the District Manager may specify such manufacturer's make or brand in the invitation to bid, but shall seek competitive bids from responsible bidders. If the manufacturer or its representative is the sole responsible bidder or sole source of supply, the District Manager may negotiate an open market order or contract with the manufacturer or its representative at prices and on terms most advantageous to the District, subject to the approval of the Board.

When the District requires supplies, materials, or equipment which are patented or proprietary and which are obtainable in two or more equally satisfactory and competitive makes, brands, or types, the invitation to bid may indicate such acceptable and competitive makes, brands or types. Such invitations to bid shall include the phrase "or approved equivalent" to permit bidders to bid on alternative or

additional makes, brands, or types. It shall be incumbent on each bidder to prove to the satisfaction of the District Manager that the alternate or additional make, brand, or type which is offered is equal in quality or performance to those listed in the invitation to bid.

5.10 The District may request the State Department of General Services to make purchases of materials, equipment, or supplies on its behalf in accordance with the provisions of Government Code Section 14814. The District may also utilize the services of the County of Sacramento's purchasing agent pursuant to the procedures established therefore.

5.11 The Board may delegate to the District Manager the power to enter into and execute on behalf of the District any contracts which do not involve the expenditure of more than five thousand dollars (\$5,000) which relate to purposes previously approved and budgeted by the Board, subject to ratification of such approval and execution by the Board. This delegation shall not apply to:

a. The purchase of furnishings, materials, supplies and employment of independent contractors used in construction or repair of any building or facility of the District;

b. Contracts for the construction of any building, facility or other improvement of the District;

c. Contracts which must be awarded after public notice and competitive bidding. Contracts awarded by the District Manager are subject to the following provisions:

d. Any contract let by the District Manager shall contain a provision that such contract terminates upon the date of provision of services or personal property or incurring of expenses the cumulative total of which exceeds the authorized amount above.

e. The District Manager shall not, absent prior approval by the Board, let any contract for the rental or lease of personal property or for the acquisition of services by independent contract or otherwise which exceeds a term of one (1) year.

f. Except as otherwise authorized herein, all purchases by the District Manager shall be made pursuant to competitive proposals, and shall be let to the party who makes the best proposal as defined in paragraph 5.07 of this section.

g. The solicitation of bid proposals by newspaper publication shall not be required. The District Manager shall utilize such processes to advertise intended purchases as are reasonably calculated to provide adequate competition among vendors, including, but not limited to, the direct solicitation of proposals from known vendors.

5.12 Policy Violations

a. Any violation of this policy shall render the contract or transaction involved voidable at the sole discretion of the Board.

b. Any person claiming to be aggrieved by a decision of the District Manager or the Board pursuant to this policy may appeal to the Board for a final determination. With regard to any such appeal which relates to a contract award, the appeal must be filed with the District within five (5) days of the date of such award. No contracts may be executed by the District during the five-day period after the date of the award and during any period while an appeal is pending before the Board, unless an emergency exists pursuant to paragraph 5.14 below.

5.13 It shall be District policy that preference be given to local merchants, within the geographical boundary of the District, provided price, quality and service or availability are satisfactory.

5.14 In case of an emergency, the Board may adopt a resolution by four-fifths (4/5) vote of all the members of the Board declaring that the public interest and necessity demand immediate expenditure of public money to safeguard life, health, or property. The Board may expend any sum required in the emergency for the purchase of any personal property, supplies and/or services without submitting the expenditure to bid.

5.15 Prior to performing any services or commencing any construction, the person, company or firm selected to perform such services or construction shall provide, in a form and amounts satisfactory to the District, proof of current insurance coverage for Worker's Compensation (if Contractor employs any employee), and Comprehensive General Liability insurance naming Fair Oaks Cemetery District, its Trustees, Officers and Employees as additional named insured.

6.00 DISPOSITION OF DISTRICT-OWNED PROPERTY

6.01 When purchasing District property, the District may solicit and accept advantageous trade-in allowances for the District-owned property which has previously been determined by the District to be surplus.

6.02 Upon recommendation by the District Manager, the Board may declare specific items of District-owned property surplus and authorize the disposition of such property. The District Manager may purchase advertising and advertise the proposed sale or other disposition of the property in newspapers or other periodical. Proceeds from the sale of District-owned surplus property shall be paid into the County Treasury for use of the District.

6.03 When District-owned property has been declared surplus by the Board, the disposition of the surplus property may be handled through the Sacramento County Department of Surplus, at the discretion of the District Manager.

6.04 The prohibition against dealing with "financially interested" parties, Section 7.00 below, shall also apply to the sale of surplus District-owned property.

7.00 FINANCIALLY INTEREST PARTIES: The District shall not make any purchase of any personal property or services from any person or business in which any Board member, officer or employee of the District has a "financial interest". A person has a "financial interest" if it is reasonably foreseeable that the purchase will have a material effect on the official or employee or a member of his or her immediate family or on:

a. Any business entity in which the official or employee has a direct or indirect investment worth one thousand dollars (\$1,000) or more;

b. Any real property in which the public official or employee has a direct or indirect interest worth one thousand dollars (\$1,000) or more;

c. Any source income, other than gifts and other than loans by a commercial lending institution in the regular course of business on terms available to the public without regard to the official status, aggregating two hundred fifty dollars (\$250) or more in value provided to, received by or promised to the official or employee within twelve (12) months prior to the time when the decision is made;

d. Any business entity in which the official or employee is a director, officer, partner, trustee, employee, or holds any position of management; or

e. Any donor of, or any intermediary or agent for a donor of, a gift or gifts aggregating two hundred fifty dollars (\$250) or more in value provided to, received by, or promised to the official or employee within twelve (12) months prior to the time when the decision is made.

For purposes of this section, "indirect investment or interest" means any investment or interest owned by the spouse of dependent child of an official or employee, by an agent on behalf of a public official, the official's agents, spouse, and dependent children own directly, indirectly, or beneficially a ten (10) percent interest or greater.

L. HARASSMENT POLICY

1. Policy

The District is an equal employment opportunity employer and will not discriminate against any employee or applicant for employment in an unlawful manner. All employees have a right to work in an environment free from discrimination based on race, color, national origin, ancestry, sex, religious beliefs, age, marital status, pregnancy, physical handicap or medical conditions. Employees are also entitled to a work environment free from all forms of harassment, including sexual harassment. Engaging in any type of harassment is grounds for disciplinary action, up to and including termination.

2. Definition of Harassment

Harassment is a form of misconduct, which undermines the integrity of the employment relationship. No employee should be subject to verbal, physical or visual harassment regarding their race, national origin, sex, religious beliefs, age, marital status or physical handicaps. Verbal harassment includes such matters as epithets, derogatory comments, slurs, derogatory jokes, as well as verbal sexual advances, repeated offensive sexual flirtations or propositions. Additionally, continued or repeated verbal abuse of a sexual nature, graphic verbal commentaries about an individual's body, sexually degrading words used to describe an individual, or suggestive or obscene letters, notes or invitations, also constitute verbal harassment.

Physical Harassment includes such activities as assault, unwanted touching, impeding or blocking movement, offensive or abusive contact, or any physical interference with normal work or movement.

Visual Forms of harassment are such things as derogatory posters, cartoons or drawings. Unsolicited or unwelcome overtures or misconduct are also a form of harassment, as well as, leering, making sexual gestures, and displaying of sexually suggestive objects or pictures.

Sexual harassment does not refer to an occasional compliment of a socially acceptable nature. It refers to behavior, which is not welcome, which may be personally offensive, which weakens morale, and therefore, interferes with the individual effectiveness and work environment. Men and women can help prevent the problems caused by sexual harassment by being businesslike in their conduct and actions. In addition, no one should imply or threaten that an applicant's or employee's "cooperation" of a sexual nature (or refusal thereof) will have any effect on the individual's employment, assignment, compensation, advancement, or any other condition of employment.

The types of actions discussed above, although not all-inclusive and illustrative only, constitute sexual harassment when:

- a. Submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment,
- b. Submission to or rejection of such conduct by an individual, is used as the basis for employment decisions affecting such individual, or
- c. Such conduct has the purpose or effect of unreasonable interfering with an individual's work performance or creating an intimidating, hostile or offensive working environment.

3. Procedure

Any improper conduct in connection with discrimination or harassment whether committed by supervisors, non-supervisory personnel, or non-employees, is specifically prohibited and disciplinary action will be taken if such conduct is found to be valid. Any employee who feels he or she has experienced discrimination or harassment in the workplace, or is aware of others who have been harassed or discriminated against, should immediately inform the Foreman or District Manager, and follow immediately with a written complaint.

An employee complaint shall be immediately investigated and if substantiated, corrective action shall be taken by the District. This will include interviewing the alleged victim, the alleged harasser and all others directly concerned, of its conclusions. If its investigation concludes that harassment has occurred, the District will take disciplinary action against the harasser commensurate with the severity of the offense, and the victim will be advised of the action taken against the harasser. Additionally, the victim may have rights under State and Federal law.

No employee will be disciplined or otherwise retaliated against for complaining about such harassment. It is important that employees inform the District about such harassment, as nothing can be done to remedy the situation if it is not known that it exists. Confidentiality will be maintained.

A copy of this policy shall periodically be made available to all employees. All employees must read the harassment policy and must sign the certification acknowledging they have read and understood the District's policy regarding harassment.

1. Purpose

Through the formal grievance procedure, employees are provided a means by which a complaint, decision or problem is formally reviewed, and an answer or decision may be given at progressively higher management levels. GRIEVANCE PROCEDURES DO NOT APPLY TO TERMINATION OF AN EMPLOYEE OR DISCIPLINARY ACTION IMPOSED BY THE DISTRICT MANAGER.

2. Eligibility

All regular employees who have been employed at least ninety (90) days are eligible to use the formal grievance procedure.

3. Procedure

b. The District Manager shall directly or indirectly discourage the use of the formal grievance procedure by employees.

c. When warranted by unusual circumstances (illness, extended absences, etc.) the District Manager may extend the time limits indicated in the Formal Grievance Procedure.

The District Manager shall reply within seven (7) working days of the grievance by the employee and shall tell the employee the reason for the decision.

In this step, the District Manager shall give the employee a full opportunity to explain his or her grievance and will promptly review all aspects of it. The Foreman will make efforts to give a prompt answer; but if more information is necessary, or if the grievance involves a matter beyond the District Manager's authority, the District Manager will insure that the problem is brought to the attention of the authority that has the responsibility to make such a decision.

It is the responsibility of the District Manager to insure that the employee is aware of the right to proceed to Step No. 1.

b. Step No. 2

If the employee is not satisfied with the departmental reply in Step No. 1 and chooses to proceed to Step No. 2, the employee must present the written grievance to the Board of Trustees within five (5) working days of the preceding decision. The District Manager will review the previous decision concerning the grievance. A written response will be made by the Board of Trustees within ten (10) working days of the presentation of grievance. A decision of the Board of Trustees is final.

O. TERMINATION PROCEDURE

Except in an emergency, the following procedure will be followed:

1. TERMINATION

a. The employee will be provided a written notice of the fact and effective date of termination and reminded of the Reconsideration provisions.

b. Persons who terminated may be entitled to unemployment compensation.

2. EMPLOYEES REQUEST FOR RECONSIDERATION

a. An employee, other than probationary employee, may request that the District Manager reconsider the decision to terminate the employee.

b. The request for reconsideration must be submitted in writing within fourteen (14) days after the notice of termination has been mailed to the employee or personally delivered to the employee. In the event the request is not received within this period of time, the opportunity to request reconsideration will be waived.

c. A request for reconsideration must be in writing and must contain the following information:

1. The reason that reconsideration is requested.

2. A summary of the factual information supporting the reasons for requesting reconsideration.

3. If the request for reconsideration is to be supported by statements of other persons, the written statements of those persons must be included in the request, together with any documents to be considered.

4. The District Manager may, as a matter of discretion, determine that a hearing is appropriate, he shall establish the time and place of the hearing and notify the employee concerned.

3. CONDUCT OF HEARING

a. Unless the District Manager determines otherwise, the hearing will be conducted in closed session.

b. The District Manager shall conduct the hearing.

- c. The employee shall be entitled to have representation to assist the employee in the presentation of his case; the District Manager may designate a person to present the District's position with respect to termination.
- d. The employee shall have the burden of proving that the initial decision to terminate the employee should be reversed and the employee should be retained by the District.
- e. The hearing shall be conducted in an informal manner; the District Manager shall make appropriate rulings with respect to procedure and the admission of evidence or information for consideration. The District and the employee shall have the right to produce evidence, to produce witnesses, and to cross-examine witnesses who are presented by the opposing party.

A failure to request reconsideration in the manner set forth in paragraph 2 above, or failure of the employee to appear at the time and place of hearing shall be deemed a waiver by the employee of reconsideration by the District Manager and acceptance of the termination.

5. NOTICE OF DECISION

The District Manager shall notify the employee of his decision. The notice shall be in writing, dated and shall inform the employee whether the employee is retained or terminated.

6. PETITION TO THE DISTRICT BOARD OF TRUSTEES

- a. An employee has thirty (30) days from the date the District Manager's decision is deposited in the mail to petition the District Board of Trustees for review of the District Manager's decision. In the event the Board of Trustees determines that a review is appropriate, the examination will be based on the record of the District Manager's action.
- b. In the event the Board of Trustees either denies the petition or determines after review to sustain the District Manager's decision, the time limit for judicial review of the Board's decision pursuant to Code of Civil Procedure 1094.6 runs from the date the notice is deposited in the mail.
- c. The Board of Trustees shall inform the employee in writing of the Board's decision.

III. FAIR OAKS CEMETERY DISTRICT SAFETY PROGRAM

A. District Policy

To our employees:

It is the policy of the Fair Oaks Cemetery District to achieve the greatest practical degree of freedom from accidents and to insure that every employee is provided safe and healthful working conditions, free from recognized hazards.

Injuries are always costly to the individual worker, often significantly change his future and frequently destroy the security of his family. They are also costly to the District, both directly and indirectly – with indirect costs often being much higher than the direct costs. It is the firm and continuing policy of the Board of Trustees that industrial accidents shall be reduced or eliminated by the use of every reasonable mechanical precaution and by the aggressive promotion of safe practices within the District.

Every employee plays an important part in preventing accidents and is expected to cooperate fully in the measures taken for safety.

Each employee has a responsibility to himself for his safety, but likewise has a responsibility to his family, to his fellow workers, to his community, and to his employer.

In the performance of his duties, therefore, he shall be expected to observe safety practices, rules and operating procedures, as well as instructions relating to the efficient performance of his work. The ideal in safe and efficient district operations is reached only when all employees are keenly alert and safety conscious.

We have instituted a Safety Program which, with your help, will succeed in providing a safe, healthful and pleasant working environment.

Everyone stands to benefit, everyone stands to gain! The cooperation of all employees in the District is expected. The results will be worth the effort.

Signed by,

Chairman, Board of Trustees

4. Providing training for personnel in safe ways to perform their work, identify hazards and provide safeguards.
5. Providing personnel with technical information necessary to properly pre-plan their daily work assignments.
6. Training the employees under their control through tailgate meetings, to safely perform their duties, identify the hazards that are unique to their work assignments and to continually survey their projects – looking for unsafe conditions and/or unsafe work practices.
7. Pre-planning all work assignments to be undertaken. Identifying work site hazards. Taking proper precautions to prevent an accident or injury. Determining that proper tools are available to do a safe job. Conducting tailgate meetings at all work sites, pointing out the work to be done and the hazards associated with the work and making sure each employee knows and understands his job. Assuring that personal protective equipment is available and in use by all employees.

EMPLOYEES

Labor Code Section 6407 informs employees of their responsibility to comply with occupational safety and health standards applicable to their own actions and conduct. In addition, employees must comply with the following District requirements:

1. Immediately report all accidents and illnesses, regardless of how slight, to their foremen.
2. Attend safety training meeting conducted by District personnel, when requested to do so.
3. Report to work free from the effects of drugs or alcohol.
4. Report to work, with required personal protective equipment.
5. Perform his/her duties in a safe and healthful manner.

6. Report all unsafe conditions encountered immediately to the foreman in charge.
7. Obey the “Code of Safe Practices and Operating Procedures” as contained in the District Safety Program.
8. Wear appropriate clothing for the work being performed.
9. Do not remove any mechanical safeguards. All guards must be put in place and kept in place.
10. No employee is to undertake a job that appears to be unsafe or use toxic chemicals without suitable training.
11. No employee shall undertake a job or operate a piece of equipment until he or she has received instruction on how to do it properly and has been authorized to perform that job or operate that piece of equipment.

C. WORKPLACE HAZARDS

Hazards in the workplace are an accumulation of the bad habits of all employees, if left uncorrected they can result in damage to equipment and serious injury to personnel

1. Identification and Evaluating
A thorough visual inspection of all equipment and work spaces will be held by the District Manager during the first week of each quarter. A hazard check list (see paragraph C4) will be completed for the office and maintenance buildings. Copies of the previous quarter’s inspection lists will be available to check for uncorrected hazards.
2. Correcting Unsafe and Unhealthy Conditions
Upon completion of the quarterly workplace inspection, the District Manager will review the results with the Foreman. Priorities and dates for having corrections completed will be assigned. Weekly reports of corrective action taken will be made to the District Manager until all items are completed.
3. Communication with Employees
 - a. Employees are to report any unsafe conditions immediately to the Foreman.
 - b. The regular monthly training session will allow time for employees to recommend ways to inspect health and safety conditions in the workplace.

PROCEDURES FOR HEAT ILLNESS PREVENTION

Adopted 07-10-2013

The following designated person or persons (Program Administrator Safety Coordinator/Supervisor/Foreman/Field Supervisor/Crew Leader) have the authority and responsibility for implementing the provisions of this program at this worksite.

Name/Title/Phone Number

1. Ray Young	District Manager	916-966-1613
2. Guillermo Barron	Lead Man	916-966-1613
3. Terri Perrin	Office Manager	916-966-1613
4. Teresa Day	Office Clerk	916-966-1613

1. Procedures for Provision of Water (include but are not limited to the following):

- Drinking water containers (of five to 10 gallons each) will be brought to the site, so that at least two quarts per employee are available at the start of the shift. All workers whether working individually or in smaller crews, will have access to drinking water.
- Paper cone rims or bags of disposable cups and the necessary cup dispensers will be made available to workers and will be kept clean until used.
- As part of the Effective Replenishment Procedures, the water level of all containers will be checked periodically (e.g. every hour, every 30 min), and more frequently when the temperature rises. Water containers will be refilled with cool water, when the water level within a container drops below 50 percent. Additional water containers (e.g. five gallon bottles) will be carried, to replace water as needed.
- Ice will be carried in separate containers, so that when necessary, it will be added to the drinking water to keep it cool.
- Water containers will be placed as close as possible to the workers (given the working conditions and layout of the worksite), to encourage the frequent drinking of water. If field

terrain prevents the water from being placed as close as possible to the workers, bottled water or personal water containers will be made available, so that workers can have drinking water readily accessible.

- Water containers will be relocated to follow along with the crew, so drinking water will remain readily accessible.
- Water containers will be kept in sanitary condition.
- Daily, workers will be reminded of the location of the water coolers and of the importance of drinking water frequently. When the temperature exceeds or is expected to exceed 90 degrees Fahrenheit, brief 'tailgate' meetings will be held each morning to review with employees the importance of drinking water, the number and schedule of water and rest breaks and the signs and symptoms of heat illness.
- Audible devices (such as whistles or air horns) will be used to remind employees to drink water.
- When the temperature equals or exceeds 95 degrees Fahrenheit or during a heat wave, the number of water breaks will be increased, and workers will be reminded throughout the work shift to drink water.
- During employee training and tailgate meetings, the importance of frequent drinking of water will be stressed.

2. Procedures for Access to Shade (include but are not limited to the following):

Note: Follow the general guidance provided above, under the Provisions for Water (identify the person assigned the task and list the specific tasks that have to be carried out).

- Shade structures will be opened and placed as close as practical to the workers, when the temperature equals or exceeds 85 degrees Fahrenheit. When the temperature is below 85 degrees Fahrenheit, access to shade will be provided promptly, when requested by an employee. Note: The interior of a vehicle may not be used to provide shade unless the vehicle is air-conditioned and the air conditioner is on.
- Enough shade structures will be available at the site, to accommodate at least 25 percent of the employees on the shift at any one time.
- Daily, workers will be informed of the location of the shade structures and will be encouraged to take a five minute cool-down rest in the shade.
- Shade structures will be relocated to follow along with the crew and they will be placed as close as practical to the employees, so that access to shade is provided at all times.
- In situations where trees or other vegetation are used to provide shade (such as in orchards), the thickness and shape of the shaded area will be evaluated, before assuming that sufficient shadow is being cast to protect employees.

- In situations where it is not safe or feasible to provide access to shade (e.g., during high winds), a note will be made of these unsafe or unfeasible conditions, and of the steps that will be taken to provide shade upon request.
- For non-agricultural employers, in situations where it is not safe or feasible to provide shade, a note will be made of these unsafe or unfeasible conditions, and of the steps that will be taken to provide alternative cooling measures but with equivalent protection as shade.

3. Procedures for Monitoring the Weather (include but are not limited to):

- The supervisor will be trained and instructed to check in advance the extended weather forecast. Weather forecasts can be checked with the aid of the internet (<http://www.nws.noaa.gov/>), or by calling the National Weather Service phone numbers (see CA numbers below) or by checking the Weather Channel TV Network. The work schedule will be planned in advance, taking into consideration whether high temperatures or a heat wave is expected. This type of advance planning should take place all summer long.

San Diego 619-297-2107 (#1)

San Francisco 831-656-1725 (#1)

- Prior to each workday, the forecasted temperature and humidity for the worksite will be reviewed and will be compared against the National Weather Service Heat Index to evaluate the risk level for heat illness. Determination will be made of whether or not workers will be exposed at a temperature and humidity characterized as either “extreme caution” or “extreme danger” for heat illnesses. It is important to note that the temperature at which these warnings occur must be lowered as much as 15 degrees if the workers under consideration are in direct sunlight.
- Prior to each workday, the supervisor will monitor the weather (using <http://www.nws.noaa.gov/> or with the aid of a simple thermometer, available at most hardware stores) at the worksite. This critical weather information will be taken into consideration, to determine, when it will be necessary to make modifications to the work schedule (such as stopping work early, rescheduling the job, working at night or during the cooler hours of the day, increasing the number of water and rest breaks).
- A thermometer will be used at the jobsite to monitor for sudden increases in temperature, and to ensure that once the temperature exceeds 85 degrees Fahrenheit, shade structures will be opened and made available to the workers. In addition, when the temperature equals or exceeds 95 degrees Fahrenheit, additional preventive measures such as the High Heat Procedures will be implemented.

Handling a Heat Wave:

- During a heat wave or heat spike, the work day will be cut short or rescheduled (example conducted at night or during cooler hours).
- During a heat wave or heat spike, and before starting work, tailgate meetings will be held, to review the company heat illness prevention procedures, the weather forecast and emergency response. In addition, if schedule modifications are not possible, workers will be provided with an increased number of water and rest breaks and will be observed closely for signs and symptoms of heat illness.
- Each employee will be assigned a “buddy” to be on the lookout for signs and symptoms of heat illness and to ensure that emergency procedures are initiated when someone displays possible signs or symptoms of heat illness.

4. High Heat Procedures (include but are not limited to):

High Heat Procedures are additional preventive measures that this company will use when the temperature equals or exceeds 95 degrees Fahrenheit.

- Effective communication by voice, observation, or electronic means will be maintained, so that employees at the worksite can contact a supervisor when necessary. If the supervisor is unable to be near the workers (to observe them or communicate with them), then an electronic device, such as a cell phone or text messaging device, may be used for this purpose if reception in the area is reliable.
- Frequent communication will be maintained with employees working by themselves or in smaller groups (keep tabs on them via phone or two-way radio), to be on the lookout for possible symptoms of heat illness.
- Employees will be observed for alertness and signs and symptoms of heat illness. When the supervisor is not available, an alternate responsible person may be assigned, to look for signs and symptoms of heat illness. Such a designated observer will be trained and know what steps to take if heat illness occurs.
- Employees will be reminded throughout the work shift to drink plenty of water.
- New employees will be closely supervised, or assign a “buddy” or more experienced coworker for the first 14 days of the employment (unless the employee indicates at the time of hire that he or she has been doing similar outdoor work for at least 10 of the past 30 days for four or more hours per day).

5. Procedures for Acclimatization (include but are not limited to):

Acclimatization is the temporary and gradual physiological change in the body that occurs when the environmentally induced heat load to which the body is accustomed is significantly and suddenly exceeded by sudden environmental changes. In more common terms, the body needs time to adapt when temperatures rise suddenly, and an employee

risks heat illness by not taking it easy when a heat wave strikes or when starting a new job that exposes the employee to heat to which the employee's body hasn't yet adjusted.

Inadequate acclimatization can be significantly more perilous in conditions of high heat and physical stress. Employers are responsible for the working conditions of their employees, and they must act effectively when conditions result in sudden exposure to heat their employees are not used to.

- The weather will be monitored daily. The supervisor will be on the lookout for sudden heat wave(s), or increases in temperatures to which employees haven't been exposed to for several weeks or longer.
- **During a heat wave or heat spike, the work day will be cut short (example 12 p.m.), will be rescheduled (example conducted at night or during cooler hours) or if at all possible cease for the day.**
- For new employees, the intensity of the work will be lessened during a two-week break-in period (such as scheduling slower paced, less physically demanding work during the hot parts of the day and the heaviest work activities during the cooler parts of the day (early-morning or evening). Steps taken to lessen the intensity of the workload for new employees will be documented.
- The supervisor will be extra-vigilant with new employees and stay alert to the presence of heat related symptoms.
- New employees will be assigned a "buddy" or experienced coworker to watch each other closely for discomfort or symptoms of heat illness.
- During a heat wave, all employees will be observed closely (or maintain frequent communication via phone or radio), to be on the look out for possible symptoms of heat illness.
- Employees and supervisors will be trained on the importance of acclimatization, how it is developed and how these company procedures address it.

6. Procedures for Emergency Response (include but are not limited to):

- Prior to assigning a crew to a particular worksite, workers and the foreman will be provided a map of the site, along with clear and precise directions (such as streets or road names, distinguishing features and distances to major roads), to avoid a delay of emergency medical services.
- Prior to assigning a crew to a particular worksite, efforts will be made to ensure that a qualified and appropriately trained and equipped person is available at the site to render first aid if necessary.
- Prior to the start of the shift, a determination will be made of whether or not a language barrier is present at the site and steps will be taken (such as assigning the responsibility to

call emergency medical services to the foreman or an English speaking worker) to ensure that emergency medical services can be immediately called in the event of an emergency.

- All foremen and supervisors will carry cell phones or other means of communication, to ensure that emergency medical services can be called. Checks will be made to ensure that these electronic devices are functional prior to each shift.
- When an employee is showing symptoms of possible heat illness, steps will be taken immediately to keep the stricken employee cool and comfortable once emergency service responders have been called (to reduce the progression to more serious illness).
- At remote locations such as rural farms, lots or undeveloped areas, the supervisor will designate an employee or employees to physically go to the nearest road or highway where emergency responders can see them. If daylight is diminished, the designated employee(s) shall be given reflective vest or flashlights in order to direct emergency personnel to the location of the worksite, which may not be visible from the road or highway.
- During a heat wave or hot temperatures, workers will be reminded and encouraged to immediately report to their supervisor any signs or symptoms they are experiencing.
- Employees and supervisors training will include every detail of these written emergency procedures.

7. Handling a Sick Employee:

- **When an employee displays possible signs or symptoms of heat illness, a trained first aid worker or supervisor will check the sick employee and determine whether resting in the shade and drinking cool water will suffice or if emergency service providers will need to be called.** A sick worker will not be left alone in the shade, as he or she can take a turn for the worse!
 - When an employee displays possible signs or symptoms of heat illness and no trained first aid worker or supervisor is available at the site, emergency service providers will be called.
 - **Emergency service providers will be called immediately if an employee displays signs or symptoms of heat illness (loss of consciousness, incoherent speech, convulsions, red and hot face), does not look OK or does not get better after drinking cool water and resting in the shade. While the ambulance is in route, first aid will be initiated (cool the worker: place the worker in the shade, remove excess layers of clothing, place ice pack in the armpits and groin area and fan the victim).**
- Do not let a sick worker leave the site, as they can get lost or die before reaching a hospital!
- If an employee does not look OK and displays signs or symptoms of severe heat illness (loss of consciousness, incoherent speech, convulsions, red and hot face), and the worksite is located more than 20 minutes away from a hospital, call emergency service providers, communicate the signs and symptoms of the victim and request Air Ambulance.

8. Procedures for Employee and Supervisory Training (include but are not limited to):

- Supervisors will be trained prior to being assigned to supervise other workers. Training will include this company's written procedures and the steps supervisors will follow when employees' exhibit symptoms consistent with heat illness.
- Supervisors will be trained on how to track the weather at the job site (by monitoring predicted temperature highs and periodically using a thermometer). Supervisors will be instructed on, how weather information will be used to modify work schedules, to increase number of water and rest breaks or cease work early if necessary.
- All employees and supervisors will be trained prior to working outside. Training will include the company's written prevention procedures.
- Employees will be trained on the steps that will be followed for contacting emergency medical services, including how they are to proceed when there are non-English speaking workers, how clear and precise directions to the site will be provided and the importance of making visual contact with emergency responders at the nearest road or landmark to direct them to their worksite.
- When the temperature exceeds 75 degrees Fahrenheit, short 'tailgate' meetings will be held to review the weather report, to reinforce heat illness prevention with all workers, to provide reminders to drink water frequently, to inform them that shade can be made available upon request and to remind them to be on the lookout for signs and symptoms of heat illness.
- New employees will be assigned a "buddy" or experienced coworker to ensure that they understand the training and follow company procedures.

GUIDANCE FOR SAFE HANDLING OF HUMAN REMAINS OF EBOLA PATIENTS IN U.S. HOSPITALS AND MORTUARIES

Policy Adopted 11-12-2014

These recommendations give guidance on the safe handling of human remains that may contain Ebola virus and are for use by personnel who perform postmortem care in U.S. hospitals and mortuaries. In patients who die of Ebola virus infection, virus can be detected throughout the body. Ebola virus can be transmitted in postmortem care settings by laceration and puncture with contaminated instruments use during postmortem care, through direct handling of human remains without appropriate personal protective equipment, and through splashes of blood or other body fluids (e.g. urine, saliva, feces) to unprotected mucosa (e.g., eyes, nose, or mouth) which occur during postmortem care.

- Only personnel trained in handling infected human remains, and wearing PPE, should touch, or move, any Ebola-infected remains.
- Handling of human remains should be kept to a minimum.
- Autopsies on patients who die of Ebola should be avoided. If an autopsy is necessary, the state health department and CDC should be consulted regarding additional precautions.

DEFINITIONS FOR TERMS USED IN THIS GUIDANCE

Cremation: The act of reducing human remains to ash by intense heat.

Hermetically sealed casket: A casket that is airtight and secured against escape of microorganisms. A casket will be considered hermetically sealed if accompanied by valid documentation that it has been hermetically sealed AND, on visual inspection, the seal appears not to have been broken.

Leak-proof bag: A body bag that is puncture-resistant and sealed in a manner so as to contain all contents and prevent leakage of fluids during handling, transport, or shipping.

PERSONAL PROTECTIVE EQUIPMENT FOR POSTMORTEM CARE PERSONNEL

- Personal protective equipment (PPE): Prior to contact with body, postmortem care personnel must wear PPE consisting of: surgical scrub suit, surgical cap, impervious gown with full sleeve coverage, eye protection (e.g., face shield, goggles), facemask, shoe covers, and double surgical gloves. Additional PPE (leg coverings, apron) might be required in certain situations (e.g., copious amounts of blood, vomit, feces, or other body fluids that can contaminate the environment).

- **Putting on, wearing, removing, and disposing of protective equipment:** PPE should be in place BEFORE contact with the body, worn during the process of collection and placement in body bags, and should be removed immediately after and discarded as regulated medical waste. Use caution when removing PPE as to avoid contaminating the wearer. Hand hygiene (washing your hands thoroughly with soap and water or an alcohol based hand rub) should be performed immediately following the removal of PPE. If hands are visibly soiled, use soap and water.

POSTMORTEM PREPARATION

- **Preparation of the body:** At the site of death, the body should be wrapped in a plastic shroud. Wrapping of the body should be done in a way that prevents contamination of the outside of the shroud. Change your gown or gloves if they become heavily contaminated with blood or body fluids. Leave any intravenous lines or endotracheal tubes that may be present in place. Avoid washing or cleaning the body. After wrapping, the body should be immediately placed in a leak-proof plastic bag not less than 150 um thick and zippered closed. The bagged body should then be placed in another leak-proof plastic bag not less than 150 um thick and zippered closed before being transported to the morgue.
- **Surface decontamination:** Prior to transport to the morgue, perform surface decontamination of the corpse-containing body bags by removing visible soil on outer bag surfaces with EPA-registered disinfectants which can kill a wide range of viruses. Follow the product's label instructions, the visible soil has been removed, reapply the disinfectant to the entire bag surface and allow to air dry. Following the removal of the body, the patient's room should be cleaned and disinfected. Reusable equipment should be cleaned and disinfected according to standard procedures. For more information on environmental infection control, please refer to "[Interim Guidance for Environmental Infection Control in Hospitals for Ebola virus](http://www.cdc.gov/vhf/ebola/hcp/environmental-infection-control-in-hospitals.html)" (<http://www.cdc.gov/vhf/ebola/hcp/environmental-infection-control-in-hospitals.html>).
- **Individuals driving or riding in a vehicle carrying human remains:** PPE is not required for individuals driving or riding in a vehicle carrying human remains, provided that drivers or riders will not be handling the remains of a suspected or confirmed case of Ebola, and the remains are safely contained and the body bag is disinfected as described above.

MORTUARY CARE

- **Do not perform embalming.** The risks of occupational exposure to Ebola virus while embalming outweighs its advantages; therefore, bodies infected with Ebola virus should not be embalmed.
- **Do not open the body bags.**

- Do not remove remains from the body bags. Bagged bodies should be placed directly into a hermetically sealed casket.
- Mortuary care personnel should wear PPE listed above (surgical scrub suit, surgical cap, impervious gown with full sleeve coverage, eye protection (e.g., face shield, goggles), facemask, shoe covers, and double surgical gloves) when handling the bagged remains.
- In the event of leakage of fluids from the body bag, thoroughly clean and decontaminate areas of the environment with EPA-registered disinfectants which can kill a broad range of viruses in accordance with label instructions. Reusable equipment should be cleaned and disinfected according to standard procedures. For more information on environmental infection control, please refer to “Interim Guidance for Environmental Infection Control in Hospitals for Ebola Virus” (<http://www.cdc.gov/vhf/ebola/hcp/environmental-infection-control-in-hospitals.html>).

DISPOSITION OF REMAINS

- Remains should be cremated or buried promptly in a hermetically sealed casket.
- Once the bagged body is placed in a sealed casket, no additional cleaning is needed unless leakage has occurred.
- No PPE is needed when handling the cremated remains or the hermetically sealed closed casket.

TRANSPORTATION OF HUMAN REMAINS

- Transportation of remains that contain Ebola virus should be minimized to the extent possible.
- All transportation, including local transport, for example, for mortuary care or burial, should be coordinated with relevant local and state authorities in advance.
- Interstate transport should be coordinated with CDC by calling the Emergency Operations Center at 770-488-7100. The mode of transportation (i.e., airline or ground transport), must be considered carefully, taking into account distance and the most expeditious route. If shipping by air is needed, the remains must be labeled as dangerous goods in accordance with Department of Transportation regulations (49 Code of Federal Regulations 173.196).
- Transportation of remains that contain Ebola virus outside the United States would need to comply with the regulations of the country of destination, and should be coordinated in advance with relevant authorities.

- b. All injuries and accidents shall be reported immediately to the Supervisor.
- c. Supervisors shall ensure that employees observe and obey every rule and regulation necessary to the safe conduct of the work.
- d. An employee reporting for work who, in the opinion of his Supervisor, is unable to perform his assigned duties in a safe and reasonable manner will not be allowed on the job.
- e. Alcoholic beverages or non-prescribed drugs are not allowed on District premises. Violators will be subject to disciplinary action.

- e. Pick up your tools, scrap and other items so that no one else will slip or trip on them.
- f. Oily rags shall be placed in a covered metal container.
- g. Never leave rakes, shovels or hoes where they can be stepped on. Proper tools placement not only prevents accidents, but enable you to keep tools in good working condition.
- h. Never pick up sharp objects such as glass, nails, etc. with bare hands.
- i. Access to first aid kits, fire extinguishers or any emergency equipment shall not be obstructed.
- j. If a cover from any floor opening, septic tank, irrigation valve vault has been removed for any reason, the opening shall be guarded by barricade while the opening is uncovered.

3. EQUIPMENT

Equipment used in the carrying out of everyday work assignments should be treated with proper respect and care, and maintained in a manner that will insure proper and safe operation.

- a. Employees shall not handle, tamper with, or attempt to operate any power equipment or motorized vehicles outside the scope of their work prior to receiving instruction from their Supervisor.
- b. Available safeguards shall be utilized consistently to minimize hazards.

- e. Adequate work shoes or boots shall be worn at all times.
- f. Protective respiratory equipment shall be worn in areas where personnel are exposed to excessive dust, airborne particles, etc.

5. LIFTING AND MATERIAL HANDLING

- a. When possible, mechanical equipment shall be used for lifting in preference to lifting by hand. This is especially true for lifting of granite markers or monuments that have been knocked down.

- b. Never carry a load you cannot see over or around.
- c. When lifting, caution should be exercised. If the object to be lifted is too heavy, get help.
- d. If two or more workers carry a load, designate one worker to give signals.
- e. Follow safe lifting and handling methods below:
 - 1. Keep feet parted when lifting an object.
 - 2. Keep your chin tucked in so that your spine is straight.
 - 3. Grip the object with you whole hand.
 - 4. Keep elbows and arms tucked in.
 - 5. Keep body weight directly over feet.
 - 6. Lift the object by straightening your legs.
 - 7. Reverse this procedure when lowering an object.
 - 8. Avoid twisting movements while lifting or lowering an object.
 - 9. Ask for help or use team lifting when moving heavy objects over fifty pounds (50 lbs.).

- f. One person should not attempt to lift anything seventy-five pounds (75 lbs.) or more.
- g. Cemetery personnel will no longer carry caskets from the hearse to the gravesite lowering device.

6. MATERIAL HANDLING – RESOLUTION 98-04

Back injuries and hernia problems are among the most common injuries. They can be extremely painful. Many of these injuries are caused by poor lifting procedures. Follow the proper procedures to reduce the risk of injury. Figure how much you can lift safely, and never exceed that limit. Seventy-five pounds (75 lbs.) is enough for anyone in good physical condition.

If the load is too heavy for you to lift by yourself, call for assistance or a crane. Use power trucks or material handling equipment only if trained and authorized. Never assume that the operator of material handling equipment sees you. Stand clear. Always keep watch when walking around corners.

To avoid stomach or back strain, use the “bend your knees” method of lifting.

When lifting:

- a. Stand close to the load, feet spread for good balance.
- b. Grip load with both hands and not just the fingertips.
- c. Bend your knees and keep your back relatively straight. Use your legs and buttock muscles to lift the object – not your back.
- d. Hold the load closely and keep it centered over your legs. This will put the least strain on your body.
- e. Avoid these mistakes:

* Load too heavy

* Twisting the load

- * Bending back
- * Reaching too far
- * Shifting load
- * Lifting from one side

- f. Seek help for awkward or heavy loads.
- g. When rolling a drum horizontally, place hands flat on top surface and away from edges.

- d. Report immediately any deficiencies observed or suspected in the vehicle to your Supervisor.
- e. Seat belts shall be fastened before vehicle is set in motion.
- f. Extra caution shall be exercised when backing. If rear vision is obstructed, take time to walk around the vehicle or have someone guide you back.
- g. No one shall be allowed to ride in the bed of a pickup truck. Adequate seating for each person must be provided.
- h. All vehicles shall be safely parked with handbrakes secured and doors locked when left unattended.

8. HAZARDOUS SUBSTANCES AND MATERIALS

If you should encounter any substance or material in any form, which you think might be dangerous, you should follow these steps:

- a. Keep your distance and keep others away.
- b. If it is burning or giving off large amounts of gas, cover it with dirt.
- c. Immediately contact your Supervisor and explain the problem to him.
- d. Collect as much information about the material (color, smell, form, container markings, etc.) as you possibly can.
- e. The District Office should then be notified and given as much information about the substance or material as can be reasonably determined.
- f. If necessary, the Hazardous Materials Response Team will be notified.

GENERAL PROCEDURES: Much of mower safety, as well as the operation of any equipment, is common sense and good judgment. The following is an important list of rules and safety precautions to follow in the operation of push and ride-on mowers:

- a. Be thoroughly familiar with any mower before attempting to operate it.
 - 1. There are operation manuals on each piece of equipment.
 - 2. Make sure you are checked out on any mower by an experienced employee before attempting to operate it.
- b. Always look over your mowing area before starting.
 - 1. Be sure your working areas are free from dangerous objects and miscellaneous debris as rotary mowers can throw a foreign object a significant distance.
 - 2. Avoid mounds, rocks, etc. which could be hazardous to operator and equipment.
 - 3. Steep slopes should be avoided.
 - 4. Avoid extremely wet areas.
 - 5. Be constantly alert for overhanging limbs, etc. which could cause injury to operator.
- c. Always operate the equipment in a safe and reasonable speed.
 - 1. Excessive speed is hazardous to equipment and extremely dangerous.
- d. Wear protective clothing when appropriate
- e. Avoid loose fitting clothing, which can be caught in machinery.
- f. Make all adjustments and repairs to mower only when engine is shut off, and plug wire is disconnected.
- g. Keep mower in safe operational condition by having all guards in place and properly maintenance after each usage.

- b. Wear the proper protective work clothing including goggles or face shields, gloves, work shoes and ear plugs.
- c. Use only the fuel that is recommended in the owner's manual.
- d. Make sure other employees, or the public, are a safe distance away from the operation (especially edging).
- e. Make adjustments or repairs to power tools only after the engine is shut off.
- f. Make sure that protective guards and devices are in place and operable.
- g. Do not attempt to operate any tool that is beyond your capacity or experience.

13. OPENING AND CLOSING GRAVES

GENERAL PROCEDURES

- a. Select the proper tools for digging and make sure they are in good condition (sod cutters, spade, shovel, pick, etc.).
- b. When possible, two (2) men should be assigned to open a grave. This will lessen the amount of fatigue on one man and reduce the possibility of strains.
- c. When opening or digging a double or triple depth grave, no persons will be allowed to enter the grave until the crypt or vault is installed.
- d. When digging with the backhoe, observe all heavy equipment safety precautions and make sure the backhoe is secured and balanced. Only qualified employees will operate the backhoe.
- e. Lowering devices and the placing of crypts or vaults require at least two (2) workers. The proper methods of lowering and carrying of heavy objects should be practiced at all times whether the graves are single, double or triple depth.
